## PRODUCT CATALOGUE

# PREMIUM QUALITY ...

... meets perfect color matches!

## RENOLIT COVA HORNSCHUCH

The PREMIUM Window Pen stands out due to its special paint quality, unique valve technology, and a tip that is perfectly suited for the application. A consistent flow of paint is guaranteed, and the shape of the tip allows for optimal coloring of miter grooves as well as precise work in challenging areas such as corners and tight spaces. Achieving different line widths is also easy. The perfect interaction of individual system components (valve system, modified tip, and optimized paint quality) makes the PREMIUM Window Pen the number one choice. Especially for RENOLIT foils in the field of building elements - doors and windows - we have launched perfectly matched color ranges for the PREMIUM Window Pen.

## GEALAN VEKA ALUPLAST DECEUNINCK PROFEL SALAMANDER ALULUX

We also have numerous foil colors from Continental/Hornschuch, Cova, Gealan and many more in our range. In addition, there are several hundred foil colors available as custom-made colors. If the color you need is not included, simply use our color service. We will match the colors exactly to the desired foil or profile.

„Some people want it to happen, some wish it would happen  
and others make it happen“

Michael Jordan

In an era where the global market is more interconnected than ever, fostering international collaborations has become imperative for businesses seeking sustained growth and innovation. Two cities that stand out in this pursuit are Philadelphia and Frankfurt, where a dynamic partnership is shaping the future of business in both regions. The collaboration between companies in Philadelphia and Frankfurt is not merely a merger of geographical locations; it's a fusion of expertise, cultural diversity, and business acumen. This symbiotic relationship allows businesses on both sides of the Atlantic to leverage each other's strengths and create a synergy that propels them to new heights.

König North America, LLC has its roots back in 1996 as the exclusive importer and distributor of Heinrich König GmbH & Co. KG in North America to meet the growing demand for high quality and innovative repair systems.

Heinrich König GmbH & Co. KG is a family owned business that traces its beginnings in 1892. Operating out of a state-of-the-art manufacturing facility, Heinrich König GmbH & Co. KG is dedicated to producing unique, high quality products that enable users to repair damages quickly and safely with outstanding results. With a broad product line that includes patented tools, "no halo" aerosols and customized colors, Heinrich König GmbH & Co. KG is known as the true innovator in the industry.

With our teams nearby Frankfurt-Germany and Philadelphia we are ready to assist several customer groups and industries, whenever our expertise is needed. We are ready for the future and at the same time continuously developing new and sophisticated solutions for a variety of specific surface repair problems. In addition, we offer our customers customized solutions in the form of integrated concepts. Paints, fillers, finishes through to labels and instructions for use - almost anything is possible, tailored to specific customer requirements.

We proudly serve the Window and Door, Furniture, Kitchen Cabinet, Flooring and Architectural market. In addition, our products are used extensively by repair technicians, furniture restorers, hobbyists, and homeowners throughout North America. Whenever there is a need for sustainable repairs and touch-ups, our products are helping customers with everything for surface repairs, and more.

Our web shop allows our customers to get a quick view on our products and order products seamlessly. Please visit our store at [koenignorthamerica.com](http://koenignorthamerica.com).

Bring yourself up to date with our innovative range and color options, and take a look at the new product catalogue! We would like to thank our customers for their trust! New customers are warmly welcomed!

# FILLERS / WAX

FOR WOOD, LAMINATE, PLASTICS, METAL, CERAMICS AND MORE ...

Find a suitable filler material for your surface and for the different types of damage. All fillers are of high quality and distinguish themselves by the following properties:

- Optimally adjusted for different demands and for different surfaces such as wood, laminate, plastics, metal, ceramics, natural and artificial stone.
- Can easily be levelled with the Special Fillers Applicator, the Combination Planer or the Metal Planer.
- Overcoatable with any Sprüh-König® aerosol lacquer.

- Degree of hardness: 1 (very soft) to 10 (extremely hard)
- Suitable for indoor use
- Suitable for outdoor use
- Melting point in degrees Fahrenheit

## QUICK FILLER

**Uses:** Ideal to repair fine scratches and hairline cracks on wood surfaces in interior areas. Rub in and level with the Special Fillers Applicator. Recommended for indoor use and for surfaces that are not subject to severe use. **Characteristics:** Easy and quick processing. Good overcoatability and easy to seal. Melting point at 60°C/ 140°F.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**      **Product Description**  
130000 ....      8cm stick, standard color at choice\*  
\* Add the desired color number to the order code

## NEW DUO ROYALE

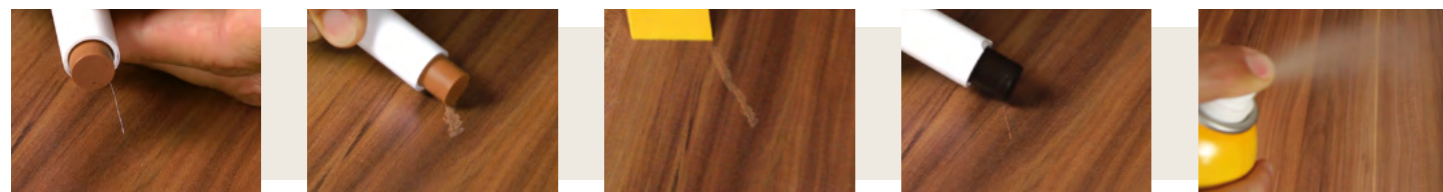

**Uses:** To fill finest scratches in wood surfaces. For the quick filling of small (nail) holes, to color and to refill abraded stained furniture edges. Recommended for indoor use and for surfaces that are not subject to severe use. **Characteristics:** Easy, quick and neat processing with the handy rotating case. High opacity, good overcoatability and easy to seal. Melting point at 60°C/ 140°F.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**      **Product Description**  
131004 ....      4cm stick, standard color at choice\*  
131772-045      10x 4cm, Wood Tone Assortment 772  
\* Add the desired color number to the order code

### Example of use:

Choose the color that best matches the surface and rub in wax crosswise to the scratch. Use the bevelled edge of the Special Fillers Applicator to spread the applied wax with circular motions using light pressure. Level off excess material with the planer grooves. Use a darker shade of filler to imitate the grain pattern, if necessary. Then again, level applied wax with the Special Fillers Applicator. Either use Special Repair Lacquer PLUS or Furniture Lacquer PLUS of the corresponding sheen to fix the repaired area and thus to protect it from dust and dirt.

## SOFT WAX

**Uses:** To fill small scratches and holes on real wood and laminate surfaces in interior areas. Press in and level with the Special Fillers Applicator. For surfaces that are not subject to severe use. Recommended for indoor use.

**Characteristics:** Soft, melts at 74°C/165°F. Available in 8cm and in 4cm sticks

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**      **Product Description**  
140008 ....      8cm stick, standard color at choice\*  
140150-010      10x 8cm, White Assortment 150  
140171-010      10x 8cm, Grey Assortment 171  
140712-010      10x 8cm, Light Wood Tone Assortment 712  
140740-010      10x 8cm, Vintage Assortment 740  
140750-010      10x 8cm, White/Gey Assortment 750  
140720-010      20x4cm, Wood Tone Assortment 720  
140180-010      20x 8cm, Wood Tone Assortment 180  
140730-011      40x 4cm, Wood Tone Assortment 730

\* Add the desired color number to the order code

### Example of use:

Use the tip of the Special Fillers Applicator to press small portions of different color shades into the damaged area. Strip off surplus wax with the Special Fillers Applicator. Afterwards, degrease surface. Use a darker shade of filler to imitate the grain pattern, if necessary. Seal and protect repaired area from dust and dirt, using Brush Pen Clear Lacquer or Special Repair Lacquer PLUS.

## HARD WAX

**Uses:** To repair deep scratches, holes and edge damage to real wood and laminate surfaces in interior areas. Melt, apply and level with the Combination Planer or the Special Fillers Applicator.

**Characteristics:** Hard, melts at 81°C/178°F, good elasticity. Available in 8cm and in 4cm sticks. All colors can be intermixed.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**      **Product Description**  
141008 ....      8cm stick, standard color at choice\*  
141712-010      10x 8cm, Light Wood Tone Assortment 712  
141740-010      10x 8cm, Vintage Assortment 740  
141750-010      10x 8cm, Grey Assortment 750  
141720-010      20x 4cm, Wood Tone Assortment 720  
141730-011      40x 4cm, Wood Tone Assortment 730  
141780-011      20x 8cm, Wood Tone Assortment 780

\* Add the desired color number to the order code

### Example of use:

Hold several color shades to the hot tip of the heater (Gas Heating Iron, Electric Heater or Battery Melter). Apply the molten filler to the damaged area in the direction of the grain. Strip off surplus wax with the Special Fillers Applicator. Use a darker shade of filler to imitate the grain pattern, if necessary. Seal and protect repaired area from dust and dirt using Brush Pen Clear Lacquer or Special Repair Lacquer PLUS.

## HARD WAX PLUS

**Uses:** Especially for scratches, holes and edge damage to real wood, artificial and laminate surfaces in the kitchen, window and flooring sector. Suitable for indoor and outdoor use. Melt, apply and level with the Combination Planer or Special Fillers Applicator.

**Characteristics:** Very hard, melts at 115°C/239°F, good elasticity, dimensionally stable from -20°C/-4°F to +110°C/230°F. Available in 8cm and 4cm sticks. All colors can be intermixed.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**      **Product Description**  
143008 ....      8cm stick, standard color at choice\*  
143720-010      10x 8cm, Wood Tone Assortment 720  
143750-010      10x 8cm, White/Grey Assortment 750  
143730-011      40x 4cm, Wood Tone Assortment 730

\* Add the desired color number to the order code

## FILLER COLOR ASSORTMENT

**Uses:** Assortment of different wax qualities (no. 130 to 143) for fine color adjusting and for transparent effects. Transparent fillers: For the translucent adjustment of König waxes and for the repair of bruises on real wood surfaces without lacquer crack. Basic shades: To tint König waxes.

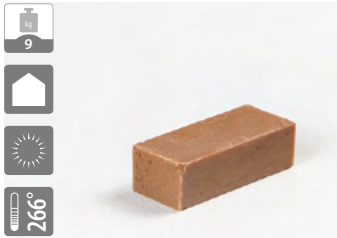

**Contents:** 1x Quick Filler transparent 0901; 1x Soft Wax: 0901; 9x Hard Wax: yellow 0915, red 0917, green 0918, blue 0919, RAL 9005, RAL 9010; transparent: 0902, 0901, 0900; 2x Hard Wax PLUS: transparent 0902, 0900

**Order Code** 144500-010  
**Product Description** Filler Color Assortment

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## NEW CERAMIC FILLER®

**Uses:** To repair scratches, holes and edge damage on tiles, ceramics and concrete building blocks in interior and exterior areas. Melt, fill in and level with the Special Fillers Applicator.

**Characteristics:** Very hard, water absorption < 1%, melts at 130°C/ 266°F. Available in 20 colors in 4cm sticks.

**Order Code** 149004 ....  
**Product Description** 4cm stick, standard color at choice\*  
149775-010 20x 4cm, Assortment 775

\* Add the desired color number to the order code

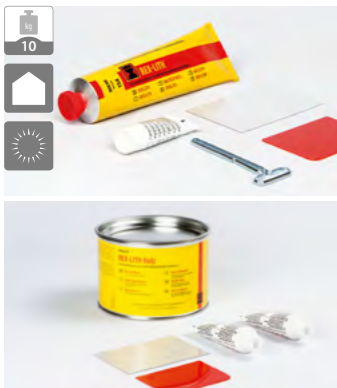

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

### Example of use:

Use the hot tip of the Gas Heating Iron (or Battery Melter) to apply Ceramic Filler of the matching shade to the damaged area. To match the right shade, the different colors can be intermixed. Use the Transparent Special Fillers Applicator to strip of excess material. Color corrections can be made by repeating the previous stage (with the desired color) and again removing any surplus, using the Special Fillers Applicator. Use a cloth to clean the surface. Seal the dry, repaired area with the Brush Pen Clear Lacquer. When the sealed area is dry, a final gloss sheen adjustment can be made with the Sanding & Polishing Cloth.

## REX-LITH

**Uses:** Ideal to repair major damage to corners and edges of real wood, laminate and metal surfaces in interior areas. (If used outside, a UV-stable sealer has to be applied.)  
**Characteristics:** 2A solvent-based two-component filler, extraordinary hard, little shrinkage (1-2%), can be treated mechanically after curing. Curing time: 20-30 min. Can be colored with König touch-up materials.

**Order Code** 150002-057  
**Product Description** DUO: Wood/White and accessories\*  
151012-057 Transparent, tube 100ml and accessories\*  
151075-058 Transparent, tin 750g and accessories\*  
152015-057 Wood, tube 100ml and accessories\*  
152101-058 Wood, tin 1000g and accessories\*  
153020-057 White, tube 100ml and accessories\*  
153101-058 White, tin 1000g and accessories\*  
155020-057 Black, tube 100ml and accessories\*  
155101-058 Black, tin 1000g and accessories\*  
170001 Hardener Paste, tube 10g  
150100 Rex-Lith Color Mixing Assortment

\*Accessories: 1x Hardener Paste, Plastic Films, Spatula and Tube Squeeze Key. Tin: 2x Hardener Paste, 2x Plastic Films, 1x Spatula.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

### Example of use:

Firmly press in small portions of the Rex-Lith filling compound until damaged area is completely filled or rather slightly overfilled. Cover with the Plastic Film, press on slightly and fix with adhesive tape. When compound begins to harden, carefully lift off the Plastic Film. Strip off coarse projectings with the chisel in thin layers immediately. When completely cured, plane off final filler residue using the Metal Planer. Before retouching, clean surface with Liquid Sandpaper and a cloth wrapped around the Felt Pad. After cleaning, make an intermediate sealing with Furniture Lacquer PLUS. Use the Touch-Up Paint Box to replicate both basic shade and grain pattern, if necessary. Finally, seal area with Furniture Lacquer PLUS.

## NEW IF-139 PLUS | 30CM STICKS

**Uses:** Ideal for filling knotholes, wood cracks, joints and drill holes. It can be used on almost all surfaces such as solid wood and veneer, woodwork, chipboard, MDF and synthetic materials. Fast melting phase, short cooling time. Accepts stains, waxes and oils. Mechanical grinding, cutting, planing, milling, brushing and also drilling possible.

- Can be used on almost all surfaces
- Fast melting phase, short cooling time
- High density and strong bond
- Very good adhesion of coating systems
- Easy to paint with NC, 2K, water and UV lacquers
- Mechanical grinding, cutting, planing, milling, brushing and drilling possible

**Characteristics:** Very hard, melting point at approx. 180°C/ 356°F

**Order Code** 139P30.....  
**Product Description** 10x 30cm, stick\*  
139P30300615 10x 30cm stick, Pine  
139P30300715 10x 30cm stick, Chestnut  
139P30300815 10x 30cm stick, Mahogany  
139P30300915 10x 30cm stick, Wenge  
139P30301015 10x 30cm stick, Anthracite  
139P30300415 10x 30cm stick, Black

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

### Example of use:

Apply IF-139 PLUS directly to the area to be filled and allow it to take effect. Immediately after filling, cool down filler with the cooling block while applying pressure to compress the material. After a short cooling period, take off Cooling Block. Cut off excess material flat with the Rali Planer or the Planer. Now further treatment is possible e.g. fixing, sheen level adjustment as well as grinding and brushing.

### Auxiliaries for IF-139 PLUS (more details on page 27):

## AQUA FILLER

**Uses:** To fill small cracks and open joints on untreated/primed wood, laminate, MDF and metal surface. Slightly overfill damaged area and, after curing, level with sandpaper or with the Metal Planer.

**Characteristics:** A water-based one-component filler, hard, drying period 30-60 minutes.

**Order Code** A15500 ....-054  
**Product Description** Tube\*, 150g and accessories  
\* Add the desired color number to the order code.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## QUIK WOOD EPOXY

**Uses / Characteristics:** Quik Wood Epoxy is a polymer compound for instant wood repair. It molds like clay, then dries like wood in 30 minutes. Quik Wood Epoxy bonds wood-to-wood and wood-to-metal. Colors can be blended to achieve desired color. Available in 7 inch sticks.

**Order Code** PKP1004  
**Product Description** 7 inch Stick, Pine  
PKP1026 7 inch Stick, Dark Wood  
PKP1027 7 inch Stick, Black  
PKP1041 7 inch Stick, Deep Mahogany

**Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

# TOUCH-UP PRODUCTS

FOR WOOD, LAMINATE, PLASTICS, METAL, CERAMICS AND MORE ...

Find a suitable touch-up product for your surface and for the different types of damage. Our touch-up materials excel especially in:

- Very short drying periods
- Wipe and water resistance
- High opacity and good bonding
- Colors are intermixable
- Tailored to the König fillers
- Overcoatable with Sprüh-König® lacquers
- Weather resistant and lightfast

- Opaque
- Glazing
- Clear / Transparent
- Suitable for indoor use
- Suitable for outdoor use

## NEW PREMIUM WINDOW PEN

**Uses:** A covering lacquer pen for the coloring of mitre joints. Optimized tip and lacquer quality ensure a continuous lacquer flow. Recommended for indoor and outdoor use.

**Characteristics:** Dries quickly, wipe-resistant, scratch-proof and overcoatable. Acrylic-based.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
243546 ....-164	Single pen, window colors at choice*
243596 ....-164	Single pen, metallic colors at choice*

\* Add the desired color number to the order code

Especially for **RENOLIT** foils in the field of building elements - doors and windows - we have launched perfectly matched color ranges for our fillers (Hard Wax PLUS) and retouching products (PREMIUM Window Pen) and are recommended by **RENOLIT** as a leading manufacturer of repair products. We also have numerous foil colors from **CONTINENTAL/HORNSCHUCH, COVA** and **GEALAN** in our range.

## PREMIUM EDGE PEN

**Uses:** The innovative Premium pen for the covering coloring of corners, edges and grooves on wood and laminate surfaces. Recommended for indoor and outdoor use.

**Characteristics:** Dries quickly, wipe-resistant, scratch-proof and overcoatable. Optimized acrylic-based lacquer quality for a continuous lacquer flow. Acrylic-based.

**Colors, TDS, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

# KING AIRBRUSH

FOR WOOD, DECOR, PLASTICS, METAL, CERAMICS AND MORE ...

In cooperation with the company Krautzberger, Heinrich König developed a top functional spray device named KING operating with resealable lacquer cartridges. This system makes it possible to coat perfectly small surfaces and thus is ideal for use in the repair sector.

**Clean working:** Thanks to the cartridge system, there is no longer a risk of splashing or leaking of the color, making it possible to work cleanly even on difficult to reach areas and overhead. **Flexible color play:** The color cartridges can be exchanged during one working cycle as often as desired. Thus, there are no limits of color variation for the user. The cartridges are available in many colors. **Efficient and economical:** Being resealable, the cartridges make it possible to process small quantities. And the selective application and fine layers of paint result in very short drying times. **Easy to clean:** A cleaning cartridge ensures cleaning in seconds.

- Efficient, economical
- Clean working
- Easy color changing
- Easy to clean

- Opaque
- Glazing
- Clear / Transparent
- Suitable for indoor use
- Suitable for outdoor use

## NEW KING COMPLETE SET

**Uses:** Highly efficient hand-held spray device that works very economically with resealable paint cartridges. This system enables perfect spraying of small surfaces with minimal use of paint and is therefore ideally suited for repair and maintenance.

**Characteristics:** Hand-held spray device including hose with standard quick-release coupling for compressor (11mm), special grease, instructions for use - with nozzle cartridge in either Ø 0.3 mm or Ø 0.5 mm.

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
409030	King complete set: with nozzle unit Ø 0.3 mm and hose with quick coupling
409050	King complete set: with nozzle unit Ø 0.5 mm and hose with quick coupling

## NEW KING EMPTY CARTRIDGES

### FOR SELF-FILLING

**Uses:** Empty cartridges for the KING hand-held spray device for self-filling of your own product, including all components. Available in two qualities: For solvent-based products or water-based.

**Characteristics:** Filling quantity of ≤ 17ml, resealable cartridge.

Order Code	Product Description
222248-403	10 Empty cartridges (solvent-based)
A22248-403	10 Empty cartridges (water-based)

Cleaning solution cartridges

**FILLED CARTRIDGES ON REQUEST:**

Please contact us for filled cartridges of special lacquer for the opaque coloring of foil-covered window components as well as end and overcaps of ASA / UPVC windows. Wipe-resistant covering lacquer. Acrylic-based. Especially for RENOLIT foils in the field of building elements - doors and windows - we have launched perfectly matched color ranges for KING Cartridges. We also have numerous foil colors from Continental/Hornschuch and Cova in our range. Also on request: covering lacquer (esp. RAL colors) for perfect spraying of small surfaces with minimal use of paint. Excellent for the repair and maintenance sector - especially for painting small parts.

**SPRÜH-KÖNIG®**  
AEROSOLS FROM KÖNIG - ALWAYS A PERFECT MATCH

In order to achieve best repair results, we provide with our Sprüh-König® brand an assortment of aerosols matched to the respective repair requirements. Whether for sealing repairs, for adjusting the degree of gloss, for effects, for priming, for preparation or everything together - whatever you want. The aerosols excel in:

- Very short drying periods
- Good adhesion, wipe and water resistance
- Optimally tailored to the König fillers

- Opaque
- Glazing
- Clear / Transparent
- Suitable for indoor use
- Suitable for outdoor use
- Water-based

**SPECIAL REPAIR LACQUER PLUS**

**Uses:** To seal repairs without showing overspray and to adjust the sheen of the surface. For indoor use on wood, laminate and metal surfaces. Soft spray technology: considerably less spray mist, a smoother and pressure-reduced spraying and an even finer spray mist.  
**Characteristics:** Transparent nitrocellulose combination lacquer, available from deep matt to gloss.

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## PF COVERING LACQUER

**Uses:** For a fully opaque color adjustment and for the varnishing of repairs in the solid color sector. To varnish partial areas. For interior and exterior use on solid wood, laminate, metal and many plastic surfaces. Soft spray technology: considerably less spray mist, a smoother and pressure-reduced spraying and an even finer spray mist.

**Characteristics:** Pigmented full-covering acrylic lacquer. Sheen level: silk matt.

**Order Code** 372000 ....-240  
**Product Description** PF Acrylic-Covering Lacquer, 400ml colors at choice\*

\* Add the desired color number to the order code.

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## LP SHADE EQUALIZER

**Uses:** For an intensive coloring/re-coloring of small parts of wood and laminate surfaces in interior areas. To level off minor lacquer damage and to adjust slight color deviations.

**Characteristics:** Colored, highly translucent NC-lacquer. Sheen level: silk matt.

**Order Code** 328000 ....-240  
**Product Description** LP Shade Equalizer, 400ml colors at choice\*

\* Add the desired color number to the order code.

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## AQUA CLEAR LACQUER

**Uses:** A high build lacquer to seal repairs and to re-lacquer small parts. For interior use on wood, laminate and metal surfaces. Ideal for oiled and waxed surfaces.

**Characteristics:** Water-based transparent acrylic lacquer. The environment-friendly alternative to the Furniture Lacquer PLUS. Odourless. Very little color-intensifying effect.

**Order Code** A34200-242  
**Product Description** 400ml, Deep Matt  
 A34300-242 400ml, Matt  
 A34400-242 400ml, Silk Matt  
 A34500-242 400ml, Silk Gloss  
 A34600-242 400ml, Gloss  
 A34400-243 150ml, Silk Matt

**Safety Data Sheet and more:** Simply use the QR code and you will find further information about the product.

## SUPER-HIGH GLOSS

**Uses:** For the re-lacquering of small high-gloss surfaces like profiles, frames and edges. To protect metal parts (brass, copper etc.) from oxidation and tarnishing, e.g. to be used for the repair of high-gloss finished musical instruments made from wood. Recommended for indoor use.

**Characteristics:** Transparent acrylic lacquer, can be used to create very thin coats, good adhesion properties.

**Order Code** 353000-240  
**Product Description** Super-High Gloss, 400ml

**Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## ANTI STICK AGENT

**Uses:** To prevent sticking grooves between sealing tape and the not yet cured thick layer glaze on windows and doors (ensures resistance to caking). For indoor use.

**Characteristics:** A colourless, wax-based product free from silicone.

**Order Code** 322000-245  
**Product Description** Anti Stick Agent, 400ml

**Safety Data Sheet and more:** Simply use the QR code and you will find further information about the product.

## ADHESION PRIMER

**Uses:** Adhesion Primer to improve lacquer adhesion to diverse plastic materials and metals in combination with König clear and colour lacquer systems. To increase lacquer adhesion to König fillers under mechanical stress. Suitable for indoor and outdoor use.

**Characteristics:** A physically drying system. A single application is sufficient. Matt film formation. Dries rapidly.

**Order Code** 313700-240  
**Product Description** Adhesion Primer, 400ml

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## UNIVERSAL BASECOAT

**Uses:** For an embedding priming, e.g. as sealing primer for a new structure, as blocking primer for a repair, as smoothing primer for closed-porous surfaces. To be used on both light and dark woods. Recommended for indoor use.

**Characteristics:** A transparent lacquer based on nitrocellulose. Can be sanded after approx. 20 minutes. Little firing effect. Overcoatable with all König touch-up and aerosol lacquers. Sheen level: matt.

**Order Code** 312000-240  
**Product Description** Universal Basecoat, 400ml

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## PRIME LACQUER WHITE

**Uses:** A high build and completely opaque primer, when body, interior parts, MDF-boards and chipboards are to be re-coated with a covering lacquer. A mobile spray system for priming. For indoor and outdoor use.

**Characteristics:** A white-tinted nitrocellulose-based primer. Physically drying system. Good crosslinking and flow properties with excellent hardness and resistance. Very good for sanding.

**Order Code** 359000-240  
**Product Description** Prime Lacquer White, 400ml

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## MOISTURE AND BLOOM REMOVER PLUS

**Uses:** To remove grey bloom, water and alcohol stains on NC lacquered surfaces. For indoor use.

**Characteristics:** A fast reacting lacquer solvent, providing a complete new formation of the upper lacquer coat.

**Order Code** 319000-245  
**Product Description** Moisture and Bloom Remover PLUS, 400ml

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## DIMETHYLETHER

**Uses:** Propellant for König aerosols.

**Order Code** 999997-240  
**Product Description** Dimethylether, 400ml

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

# ASSORTMENTS

WELL STOWED, EVERYTHING THERE!

Convince yourself of our current assortments - whether for use in the workshop, in production or on-site at the customer: Optimally tailored to diverse requirements and different fields of application, the systems are extremely clear and functionally arranged in wooden and plastic kits.

## NEW ALL-IN-ONE KIT | 603005

One for all: With this new ALL-IN-ONE kit you are well prepared for all kinds of damage - small scratches on the cabinet door, a chipped washbasin, an incorrectly set drill hole in a wall tile, scuff marks on a wood table or whatever. With the ALL-IN-ONE kit you repair a variety of surface damage quickly, effectively and durably. Evade costly and time extensive replacement works and make your rooms and objects look really good again. The ALL-IN-ONE Kit is ideal for facility services, hotels and gastronomy. The new kit contains almost all kinds of fillers like Duo Royale, Soft Wax, Hard Wax, Hard Wax PLUS, Rex-Lith and Ceramic Filler as well as the fillers for sanitary ceramics and natural stone. Furthermore, various touch-up materials such as the lacquer pens Premium Edge Pen and Brush Pen as well as all necessary accessories and tools.

## NEW UNIVERSAL KIT FURNITURE/INTERIOR FINISHING 1 | 603001

The Universal Kit 603001 is the comprehensive system for the professional, high quality repair of nearly any kind of damage on wood and laminate surfaces in the interior area (furniture, stairs, floorings). From Quick Filler, Soft Wax and Hard Wax series to Rex-Lith to numerous touch-up materials, the kit comprises all products required to execute a good repair. All necessary accessories and processing tools are also included as well as clear lacquers for sealing. Despite the large range, everything is in its place in this kit, clearly and functionally arranged. With drawers, pull-out compartments and pen holders everything is variable and can be arranged according to your individual needs in a very flexible way like a shelving system. The kit is used in the workshop or even on-site at the customer's premises.

# CLEANING & MAINTENANCE

FOR WOOD, DECOR, PLASTICS, METAL, CERAMICS AND MORE ...

The König product world for repairs is rounded off by high-quality cleaning and maintenance products. Matched to the individual requirements and to the different kinds of surfaces, we offer a good choice of powerful products.

- For varnished 1C surfaces
- For oiled and/or waxed wood surfaces
- For décor and plastic surfaces
- Suitable for indoor use
- Suitable for outdoor use
- Water-based

**NEW** AQUA SOFT-CLEANER

**Uses:** For the professional cleaning of matt and super-matt foil-coated surfaces and plastic window profiles. Extremely thorough, extremely gentle and recommended by leading foil manufacturers: For cleaning foil-coated surfaces, we introduce the AQUA Soft-Cleaner from König. Thanks to its special formula, it shows its full capabilities especially on matt and supermatt foils (such as Skai®mattex or RENOLIT PX Matt) without changing the gloss level of the surface. The AQUA Soft-Cleaner also reliably cleans plastic window profiles (PVC white and colored) and painted, non-absorbent surfaces. In addition to marking lines, labels, adhesive residue and residues from protective films, the cleaner also effortlessly removes bitumen and butyl, foreign body abrasion (e.g. rubber) as well as emission deposits and construction dirt. And that, of course, both indoors and outdoors.

**Characteristics:** Water-based emulsion with intensive cleaning action. Antistatic effect.

Order Code	Product Description
A54200-605	AQUA Soft-Cleaner, 150ml
A54200-616	AQUA Soft-Cleaner, 1 liter

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## FURNITURE REFRESHER

**Uses:** For the gentle removal of slight water and alcohol stains and to freshen up greyed nitrocellulose lacquer surfaces in interior areas.  
**Characteristics:** Solvent-based product. Reactivates the surface and provides a slight surface sheen.

**Order Code**  
 543000-605  
 543000-600

**Product Description**  
 Furniture Refresher, 150ml  
 Furniture Refresher, 1 liter

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## LIQUID SANDPAPER

**Uses:** To degrease the surface prior to a repair. For the gentle removal of filler residue.

**Order Code**  
 711000-605  
 711000-600

**Product Description**  
 Liquid Sandpaper, 150ml  
 Liquid Sandpaper, 1 liter

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## CELLULOSE THINNER

**Uses:** For the thinning of all König NC- and acrylic lacquers, for the glazing adjustment of Color Touch-Up and to dissolve the paint chips in the Touch-Up Paint Box. Can be used as brush cleaner.

**Order Code**  
 710000-605  
 710000-600

**Product Description**  
 Cellulose Thinner, 150ml  
 Cellulose Thinner, 1 liter

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## UNIVERSAL MAINTENANCE LACQUER

**Uses:** For the maintenance of high-build glaze coated wood windows and foil-covered UPVC windows in interior and exterior areas.  
**Characteristics:** Water-based product. Dries quickly, resistant to yellowing. Sheen level: silk gloss.

**Order Code**  
 514500-616

**Product Description**  
 Universal Maintenance Lacquer, 1 liter

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## FURNITURE CLEANER

**Uses:** For thorough cleaning of varnished surfaces in interior areas. Removes greasy films, scuff marks from shoes, stickers, wax, nicotine coatings as well as pencil marks and ballpoint pen ink stains.  
**Characteristics:** Water-based emulsion with intensive cleaning action. Antistatic effect.

**Order Code**  
 542000-605

**Product Description**  
 Furniture Cleaner, 150ml  
 Furniture Cleaner, 1 liter

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

# AUXILIARIES & TOOLS

ALWAYS THE RIGHT TOOL AT HAND

In addition to the large number of fillers and touch-up materials, we offer a variety of auxiliaries to complement our range of repair products helping you to process our products effectively and to achieve best possible repair solutions. Optimally tailored to the processing requirements of our products, the auxiliaries have been well-proven over many years. You will also find spare parts and consumables that are used in connection with our case systems and sets. Find everything on the topics:

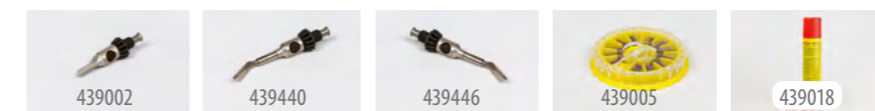

- Filling
- Retouching
- Spatula
- Mixing colors
- Cleaning
- Consumables
- Levelling
- Sanding, plane
- Thinner
- Polishing
- Melting
- Spare Parts

## GAS HEATING IRON

A mobile, gas-operated melting tool for the processing of meltable fillers: for melting, molding and color mixing. The temperature is infinitely adjustable. Because of legal regulations, the Gas Heating Iron is supplied in unfilled condition. We recommend to use high-quality pure butane lighter gas from renowned manufacturers. **Technical data:** Length 177 mm / Weight: 60 g / Operating time: approx. 3 hours (dependent on setting) / Maximum temperature: 240°C / 464°F. Flint, included in delivery.

Order Code	Product Description
439001-420	Gas Heating Iron
439002	Spare Tip for Gas Heating Iron
439005	Flint, 12 pcs
439018	Refill Gas, 100ml
439440	Special Heater Blade
439446	Special Heater Blade, left hand

**Instructions and more:** Simply use the QR code and you will find further information about the product.

## ELECTRIC HEATER

A stationary electrical melting device for continuous operation, serving the same range of use as the Gas Heating Iron. Easy to use due to temperature setting adapted to the different kinds of fillers.  
**Technical data:** Heater: Voltage: 12 V / Power: 25 W / Lead: 2.5 m / Transformer: Primary voltage 230 V, 50 Hz / Secondary voltage 12 V / Nominal power: max. 30 W / Temperature setting: infinitely variable, with scale of range / Function indicator: red LED

Order Code	Product Description
440100	Electric Heater, complete
440603	Melter Tip for Electric Heater
440604	Transformer for Electric Heater
440605	Melter with Tip for Electric Heater

**Instructions, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

+++ DO YOU HAVE ANY QUESTIONS ABOUT THE NEW PRODUCTS OR APPLICATIONS? JUST TAKE A LOOK AT OUR WEBSITE OR WRITE A SHORT EMAIL TO INFO@HEINRICH-KOENIG.COM +++

## BATTERY MELTER

Battery Melter is designed for the melting of fillers like Hard Wax and Ceramic Filler. The melter is powered by 3 x AA size batteries. The melter has a curved tip for mixing and optimal handling of the fillers - even in corners and edges. Handling and operation are simple.

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**  
438620

**Product Description**  
Battery Melter

## SPECIAL FILLERS APPLICATOR

The smart nostrum for the processing of fillers. Soft Wax can easily be applied and levelled. Excess residue of Hard Wax and Hard Wax PLUS simply to be stripped off with the grooves without scratching the surrounding area. Final filler residue is removed with the fleece stored inside the tool. **Elements:** Corpus with planer grooves, drawer with cleaning comb sanding and polishing cloth (small) and sanding pad (coarse).

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**  
161149-420

**Product Description**  
Special Fillers Applicator

## COMBINATION PLANER

The Combination Planer consists of the modified Special Fillers Applicator with integrated mini Metal Planer blade. This combination tool levels all kinds of König fillers. 90 degree inner edges can be treated not only with the blade of the Metal Planer but also, thanks to an altered groove direction, with the body of the Special Fillers Applicator.

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**  
161700-420

**Product Description**  
Combination Planer

## METAL PLANER

A precision tool for the gentle levelling of all solid König fillers. It is also an effective tool to remove imperfections in the finish like runs and sags. Precise working possible without scratching the surrounding area. The high-quality blade made of chrome vanadium steel can be used on both sides. The leather protective cover is included in delivery.

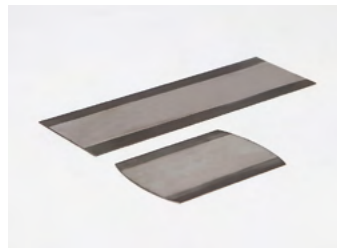

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**  
163000-420

**Product Description**  
Metal Planer

## SPECIAL SCRAPER

To level the filled area evenly and to remove lacquer runs and bumps in the lacquer surface. High-quality steel, tempered and sharpened cutting edges. Special Scraper "small": especially designed to remove scratches in white UPVC window frames, particularly well suited for difficult-to-reach areas.

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

**Order Code**  
406000

**Product Description**  
Special Scraper  
160x50mm

**Order Code**  
406500

**Product Description**  
Special Scraper small,  
75x50mm

## SANDING PAD COARSE

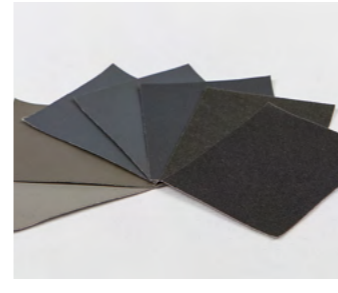

**Order Code**  
609003

**Product Description**  
Sanding Pad, coarse  
100x60mm

To remove filler residue with a light sanding effect and to dull shiny spots. Grit: 1500.

## MICRO SANDING PAPER

**Order Code**  
412007

**Product Description**  
Assortment\*

To polish out fine scratches on all varnished surfaces, acrylic/perspex, polyester, Hard-PVC, brass and aluminum. Excellent results on high-gloss surfaces. Application of wet sanding method. Can be washed. \*The assortment comprises 1 sheet each per grit, sized 6x7.5cm (1800, 2400, 3200, 4000, 6000, 8000, 12.000).

## CORK SANDING BLOCK

**Order Code**  
416000

**Product Description**  
Large 100x60x40mm

**Order Code**  
418000

**Product Description**  
Small 60x33x26mm

**Order Code**  
418100

**Product Description**  
Cork Sanding Block with  
Felt Pad 60x33x39mm

For use with all König sandpapers. With Felt Pad: For use with Micro Sanding Paper. Ideal for UPVC profiles. Adapts to the slightly convex surface of the profile.

## WIRE WOOL, EXTRA FINE

**Order Code**  
413600-409

**Product Description**  
Wire wool, 50g

**Order Code**  
413000

**Product Description**  
Wire wool, 200g

For finest lacquer sanding, to tone down a heavy application of touch-up products and for the gentle cleaning of the melter tips (Gas Heating Iron and Electric Heater).

## FELT PAD

**Order Code**  
419000

**Product Description**  
Felt Pad

The Felt Pad is used with a cloth to remove filler residue and to process polishing paste.

## FELT PAD WITH ABRASIVE LINING

**Order Code**  
420000

**Product Description**  
Felt Pad with abrasive  
lining (1500 grit)

The Felt Pad with abrasive lining is used to remove filler residue without a cloth.

## EDGE PLANER

**Order Code**  
165000-420

**Product Description**  
Edge Planer

To cut off damaged edges on wood and laminate surfaces. The rounded side of the Edge Planer is used to level damage edges on solid wood and veneer.

## BRASS BRUSH

**Order Code**  
407000

**Product Description**  
Brass Brush

For the gentle cleaning of the Metal Planer blade.

## COTTON CLOTHS WASHED

**Order Code**  
422000-402

**Product Description**  
Cotton Cloth, DINAS, 5/bag

**Order Code**  
422000-403

**Product Description**  
Cotton Cloth, DINAS, 10/bag

Used together with Felt Pad and Liquid Sandpaper to remove filler residue. For cleaning and maintenance work. Cotton texture, washed.

## SPECIAL CLOTH

**Order Code**  
426501

**Product Description**  
Special Cloth,  
approx. 33x37cm, 40 pcs

A highly absorbent, lint free and tear-proof textile cloth. Indispensable for all cleaning, sanding and polishing work. Very gentle to high-gloss surfaces.

## CLEANING CLOTH, YELLOW

**Art.-Nr.** 421500  
**Produktbezeichnung** Cleaning Cloth, yellow

The cleaning cloth is suitable for polishing various surfaces. The cloth is recommended for both smooth, textured and sensitive surfaces.

## SANDING AND POLISHING CLOTH

**Order Code** 411000-420  
**Product Description** Sanding and Polishing Cloth, 10x13 cm

White side to dull shiny patches on the surface, to clean plastic and varnished wood surfaces and to remove spray mist. Green side for polishing and to produce a gloss finish on matt surfaces.

## MIXING PALETTE

**Order Code** 603095  
**Product Description** Mixing Palette 140x105x15mm

A handy mixing palette with a solvent-resistant surface and drilling holes for a safe stand of mixing cups and brushes.

## MIXING CUP

**Order Code** 641120  
**Product Description** Mixing Cup, 40ml

Suitable for multiple uses, e.g. for practical dosing and for mixing Polyester Filling Lacquer. Also suitable as a container for NC thinning.

## MIXING SPATULA

**Order Code** 641220  
**Product Description** Mixing Spatula

To mix Polyester Filling Lacquer with hardener. Packaging unit: 20 pcs.

## SPATULA

**Order Code** 162001  
**Product Description** Spatula

To mix Rex-Lith with hardener and to apply AQUA Filler.

## SQUIRREL HAIR BRUSH

**Order Code** 429001  
**Product Description** Squirrel Hair Brush No. 1  
429002 Squirrel Hair Brush No. 2  
429003 Squirrel Hair Brush No. 3  
429123 Assortment of 3 (No. 1-3)

For the fine touch-up by brush, an economical alternative to the Red Marten Brush.

## RED MARTEN BRUSH

**Order Code** 430001  
**Product Description** Red Marten Brush No. 1  
430002 Red Marten Brush No. 2  
430003 Red Marten Brush No. 3  
430123 Assortment of 3 (No. 1-3)  
Meets highest demands when retouching with Touch-Up Dye, Color Touch-Up and the Touch-Up Paint Box.

## SPRAY NOZZLES

**Order Code** 1. EB3233  
**Product Description** Swirl nozzle, big orifice: For wet varnishing of whole surfaces. Recommended for Universal Basecoat. Also suitable for Sliding Agent, Anti Stick Agent and all maintenance products in the spray can.  
2. EB3213 Swirl nozzle, medium orifice: For wet spraying during repairs. Recommended for Furniture Lacquer PLUS, PF/PFH Covering Lacquer.  
3. EB3212 Swirl nozzle, small orifice: For very fine misting. Recommended for Super High Gloss, Shade Equalizer P or LP, Moisture and Bloom Remover PLUS.  
4. EB3228 Swirl nozzle, white: for AQUA Clear Lacquer.  
5. EB3243 Swirl nozzle-soft spray technology: For Special Repair Lacquer PLUS, Clear Lacquer PLUS as well Covering Lacquer PF and PFH.

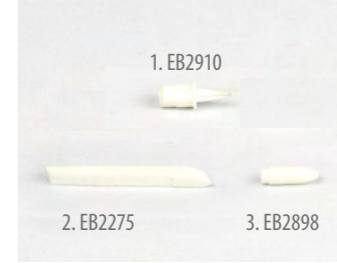

## SPRAY CAN HANDLE

**Order Code** 399100-420  
**Product Description** Spray Can Handle

The Spray Can Handle as an attachment to aerosol cans, allowing convenient permanent spraying.

## SPARE TIPS FOR PEN SYSTEMS

**Art.-Nr.** 1. EB2910-420  
**Produktbezeichnung** For Brush Pen Covering/Clear Lacquer (10 pcs)  
2. EB2275-420 For Felt Touch-Up Dye Pen (10 pcs)  
3. EB2898-420 For PREMIUM Window Pen and PREMIUM Edge Pen (10 pcs)

## MELTING GUN KNA-139-330

For melting IF-139 Plus and Knot Filler. Includes grub screw for optimal feeding Filler sticks. **Technical data:** 330 WATTS, 100-120 V, 130°-230°C, Ø 11-11.5 mm

**Order Code** KNA-139-330  
**Product Description** Melting Gun

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

## RALI PLANER MONOBLOCK 105

For planing IF-139 Plus and Knot Filler.

**Order Code** 161600  
**Product Description** Rali Planer Monoblock 105

## SPARE PARTS FOR RALI PLANER

**Order Code** 161604  
**Product Description** Spare Part (10 pcs) for Rali Planer Monoblock

## PLANER, 50MM LEITZ-CUTTER

**Order Code** 161610  
**Product Description** Planer, 50mm Leitz-Cutter

For planing IF-139 Plus and Knot Filler.

## COOLING BLOCK 120

**Order Code** 161605  
**Product Description** Cooling Block 120

The Cooling Block is used to cool down the fillers (IF-139 PLUS or the PA Knot Filler) after insertion and compacted with pressure.

# CONSUMER PRODUCTS

With our enduser brand picobello®, we offer interesting and perfected ideas and products for industry, trade and handicraft. Products and ideas helping you to achieve service improvement and to reduce complaint costs! The range of our service products can be supplied along with your customers' consignments or used as display products at POS or as give-aways. Our webshop for the enduser provides a first overview of our range. ## PICOBELLO® PREMIUM REPAIR KIT (FOR LACQUERED REAL WOOD/DECOR SURFACES)

**Uses:** This Repair Set is ideal for repairing chips, scratches and other types of cosmetic damage to items such as furniture, laminate / real wood flooring and kitchen worktops. Once cured, the filler is colorfast, weather-resistant and will not shrink.

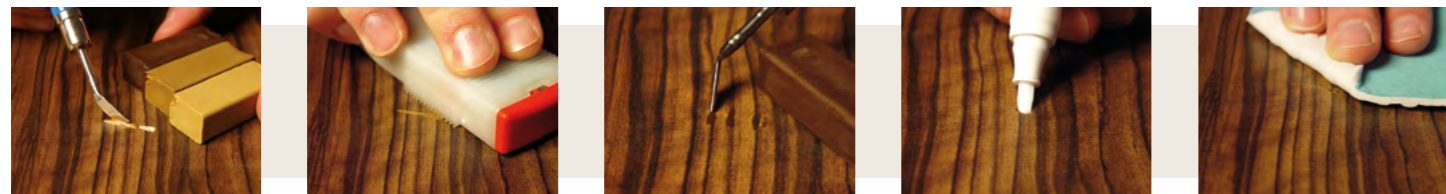

**Set contents:** 15x Hard Wax, 1x AQUA Brush Pen Clear Lacquer (Gloss), 1x Battery Melter, 3x Battery (Micro 1.5 V AA), 1x Special Filler Applicator, 1x Lint-free Cloth, 1x illustrated instruction sheet.

**Order Code** G61420  
**Product Description** PREMIUM Repair Set

**Instructions and more:** Simply use the QR code and you will find further information about the product.

### Example of use:

Hold several color shades to the hot tip of the heater. Apply the molten filler to the damaged area in the direction of the grain. Strip off surplus wax with the Special Fillers Applicator. Use a darker shade of filler to imitate the grain pattern if necessary. Seal and protect re-paired area from dust and dirt using Brush Pen Clear Lacquer. With the Sanding & Polishing Cloth you can adjust the sheen level.

## PICOBELLO® CERAMIC REPAIR KIT (FOR WALL AND FLOOR TILES)

**Uses:** Repair Set including AQUA Brush Pen Clear lacquer for sealing, for the sustainable repair of damage such as small flakes and drill holes in wall and floor tiles. Available colors; White/Grey or Terracotta. The colors can be mixed together to achieve a great color match. Recommended for indoor use.

**Set contents:** 5x Ceramic Filler, 1x AQUA Brush Pen Clear Lacquer (Gloss), 1x Battery Melter, 3x Battery (Micro 1.5 V AA), 1x Special Filler Applicator, 1x Lint-free Cloth, 1x illustrated instruction sheet.

**Order Code** G61470  
**Product Description** Ceramic Repair Set White/Grey  
G61471  
**Product Description** Ceramic Repair Set Terracotta

**Instructions and more:** Simply use the QR code and you will find further information about the product.

### Example of use:

Hold several color shades to the hot tip of the heater. Apply the molten filler to the damaged area in the direction of the grain. Strip off surplus wax with the Special Fillers Applicator. Use a darker shade of filler to imitate the grain pattern, if necessary. Seal and protect re-paired area from dust and dirt using Brush Pen Clear Lacquer. With the Sanding & Polishing Cloth you can adjust the sheen level.

## PICOBELLO® CERAMIC FILLER - COMPLETE ASSORTMENT

**Uses:** This pack is designed for refilling or as a supplement to extend your color range for the Picobello Ceramic Tile Repair Kit. For the processing you basically need the Special Fillers Applicator, the Battery melter, the Sanding and Polishing Cloth as well the Clear Lacquer Brush Pen to seal the repair. All these components are included in the Picobello® Ceramic Tile Repair Kit. You can also use this assortment as an addition to the Wood Repair Kit. That way you are able to repair wood surfaces as well as tiles, terrazzo and cast stone.

**Order Code** 149775-010  
**Product Description** Ceramic Filler - Complete Assortment

**Instructions and more:** Simply use the QR code and you will find further information about the product.

## NEW PICOBELLO® REPAIR KIT - CERAMIC SANITARY WARE

**Uses:** For the repair of minor chips, impact damage or small holes in ceramic surfaces in the sanitary sector like washbasins, bathtubs and toilets. Cures in seconds.

**Set contents:** 1 Ceramic Filler (white), 1 Polishing Paste, 1 Wooden Spatula, 4x Clear Film Strips, 3x Sandpaper, 1x Cotton Cloth, 1x Mini LED Light, 2x Cannulas, 1x illustrated instruction sheet.

**Order Code** G41060  
**Product Description** Repair Set Sanitary Ceramic

**Instructions and more:** Simply use the QR code and you will find further information about the product.

### Example of use:

The area to be repaired must be clean, dry and free from grease. Attach the cannula firmly to the syringe. Apply the filler directly into the damaged area until area is slightly overfilled. Place the clear film strip directly onto the filled area. Use the wooden spatula to flatten the filling material. Activate the Mini LED Light either by pressing the centre of the lamp. Cure the filled area by illuminating for approx. 5-10 minutes per cm<sup>2</sup> from a distance of not more than 1 cm. When filler has cured, remove the clear film strip. Use the Special Sandpaper to sand off excess material in a circular motion with light pressure until level. Apply a small amount of polishing paste to the repaired area and rub in with the cotton cloth in a circular motion using light pressure until the sheen matches the surrounding area. Clean away any polish residue with a dry and clean part of the cotton cloth.

## NEW PICOBELLO® REPAIR SET NATURAL AND ARTIFICIAL STONE

**Uses:** This repair kit is designed for fixing chippings, impact damage, and small holes on polishable natural and engineered stones. Recommended for indoor use. Cures in seconds.

**Set contents:** 1x Natural/Artificial Stone Filler (transparent), 1x Polishing Paste, 2x Cannula, 1x Wooden Spatula, 1x Scalpel, 4x Clear Film Strips, 1x Micro Sanding Paper 1x Cotton Cloth, 1x Mini LED Light, 1x illustrated instruction sheet.

**Order Code** G40360  
**Product Description** Repair Set Natural And Artificial Stone

**Instructions and more:** Simply use the QR code and you will find further information about the product.

### Example of use:

The area to be repaired must be clean, dry and free from grease. Remove discoloration at edges with sandpaper or a (tooth) brush. Attach the cannula firmly to the syringe. Apply the filler directly into the damaged area until area is slightly overfilled. Place the clear film strip directly onto the filled area. Use the wooden spatula to flatten the filling material. Make sure no bubbles will develop under the film. Activate the Mini LED Light either by pressing the center of the lamp or by moving the small slide regulator. Cure the filled area by illuminating for approx. 5-10 minutes per cm<sup>2</sup> from a distance of not more than 1 cm. Curing time varies depending on coat thickness. When filler has cured, remove the clear film strip, carefully cut off any excess material with the scalpel when cured. Use the Special Sandpaper to sand off excess material in a circular motion with light pressure until it is even. Attach the cannula firmly to the syringe of the polishing paste. Apply a small amount of polishing paste to the repaired area and rub in with the cotton cloth in a circular motion using light pressure until the sheen matches the surrounding area. Clean away any polish residue with a dry and clean part of the cotton cloth.

**NEW** PICOBELLO® LACQUER LINER PLUS

**Uses:** For fine retouching of imperfections such as fine scratches on the surface, on corners, edges or grooves. And for targeted coloring of closed surfaces in wood, plastic and metal.

**Characteristics:** Acrylic-based pigmented covering lacquer. Fine, thin tip for targeted work. Fast drying. High coverage. Good lightfastness and weather-resistance.

**Colors, Safety Data Sheet and more:** Simply use the QR code and you will find all available colors and further information about the product.

--	---------------------------------------	--	--	--------------------------------------

**Example of use:**

The parts to be dyed have to be dry and free from dust and grease. Shake pen vigorously with cap on for at least 10 - 20 seconds - mixing balls must be audible. Due to exterior influences (heat) an overpressure may develop. To prevent blotching, the pen must be de-aerated. Remove cap and hold pen with tip pointing upwards (ideally into a cloth). Briefly press area marked 'PRESS' to de-aerate pen audibly. Hold pen with tip pointing downwards and gently press area marked 'PRESS', lacquer will slowly run into the tip. Apply lacquer evenly in one go. When opacity decreases, press again to reactivate lacquer flow.

**PICOBELLO® REPAIR SET 2 IN 1**

**Uses:** For the quick repair of minor scratches and abrasions. The colors can be intermixed and are suitable to be over painted. For surfaces that are not subject to severe use. Recommended for indoor use.

**Characteristics:** The wax in the rotating case impresses with its high opacity, it is overcoatable and can easily be sealed. Available in five different color sets.

# WHATEVER YOU WANT!

*We have plenty of options for you.*

LARGE SELECTION OF CONFIGURATIONS +++ READY-TO-SHIP PACKAGING  
+++ PRIVATE LABELING +++ CUSTOM COLOR MATCHING

Use our service to create your own individual repair kits. Nothing is impossible: you can choose the size, the composition of the products and even the colors of the fillers. Discover the numerous possibilities. Contact us and we will find the perfect solution for your individual needs, be it for your own use or as a customer care kit for your customers.

Why customer care kits? When you send out a Kitchen or a piece of Furniture, why not make the job complete with a Customer Repair Kit. This Kit will enable the installer to make final small repairs and the kit is left with the home owner to make minor scratch repair on their own. So you can reduce returns of scratched items and minimize service calls by adding a convenient kit for your customer!
